EDUCATION

Shree L.R, Tiwari College of Engineering   **2022 - 2026**
*Bachelors in Computer Engineering - **CGPA - 9.74***   *Mumbai, Maharashtra*

PROJECTS

Ziora ⧉ | Next JS, Tailwind CSS, Typescript, MongoDB, GitHub API   **June 2025**
- Ziora is a comprehensive educational platform designed by engineering students to help fellow students excel in their academic journey with curated study materials, practical resources, and exam preparation tools.

Guidant ⧉ | ReactJS, Tailwind CSS, JavaScript, ZegoCloud, Node.js, Express.js, MongoDB   **January 2025**
- Students take a STEM assessment via Gemini AI to get personalized career insights and connect with expert mentors through live video sessions using Zegocloud, with payments via Razorpay. Mentors manage profiles, earnings, and share blogs, while learners track progress on a dedicated dashboard.

LinkUP ⧉ | Next JS, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB   **March 2025**
- LinkUP is a sleek, user-friendly platform that lets users organize and share all their important links through a single, customisable profile page. Designed for content creators, freelancers, influencers, and business owners, LinkUP makes it easy to showcase multiple links in one place with a clean, professional look.

LockIT ⧉ | ReactJS, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB   **February 2025**
- Built a password manager with encryption, helping users securely manage 50+ passwords with ease. React + Vite used for the frontend, styled using Tailwind CSS, and backed by MongoDB for secure storage of website URLs, usernames, and passwords.

Learnify ⧉ | ReactJS, Tailwind CSS, JavaScript, Node.js, Express.js   **December 2024**
- A user-friendly platform where students can browse, purchase, and access a wide range of courses across various subjects. Teachers can create profiles, upload course content, and manage their teaching materials to reach and educate students effectively.

EXPERIENCE

Compozent ⧉   **December 2024 - January 2025**
Web Development Intern   *Mumbai, Maharashtra*
- I was assigned to build an online learning platform where students can buy courses and teachers can upload content. I got to learn ReactJS and Node.js during the project.

Web Development Inhouse Internship ⧉   **June 2024 - September 2024**
Web Developer   *Mumbai, Maharashtra*
- I worked on developing Melodify, a music streaming platform where users can listen to, explore, and upload songs. Techstack: HTML, CSS, JavaScript, PHP, MySQL.

Automata Hackathon, Chattrapati Shivaji Maharaj Institute Of Technology ⧉   **April 2025**
Full Stack Developer   *Panvel, Maharashtra*
- Participated in the college level hackathon and developed a Full stack web application.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS
Developer Tools: Git, GitHub, VS Code, Unix Command Line, Postman, Figma, Notion, Napkin
Technologies/Frameworks: Next JS, ReactJS, Node.js, Express.js, MongoDB, MySQL, PostgreSQL
Libraries: Bootstrap, Tailwind CSS, jQuery, Axios, Mongoose, EJS, NextAuth.js, JWT

CERTIFICATIONS

- The Full Stack Web Developer Course by Angela Yu
- Web Development Intern in Compozent
- AWS Academy Graduate - AWS Academy Cloud Foundations
- The Ultimate SQL Bootcamp : Go From Zero to Hero
- Python in Action: A Practical Course
- InHouse Internship Certificate
- Code Automata Hackathon Certificate
